

Regarding Exhibiting in OXExpo

May 21, 2026

Yasuhiro Shimbo
Director General, Port and Harbor Bureau, City of Yokohama

To all those considering exhibiting at OXExpo,

We hope this message finds you well.

We would like to express our sincere appreciation for your continued support of our city's port administration.

As the port authority of Yokohama Port—one of Japan's leading ports—we are working together with many related organizations and private companies to develop a port that contributes not only to Yokohama's economy but also to the growth of Japan as a whole. Our efforts are guided by three pillars: creating an internationally competitive port, a port of tourism and vibrancy, and a safe, secure, and environmentally friendly port.

Beginning this fiscal year, we have also become responsible for ocean-related policies in addition to port administration. By overseeing marine policy, we believe we can create even more opportunities to collaborate with shipping companies and marine engineering professionals who have long supported Yokohama Port. As one expression of this strengthened collaboration, we will be hosting OXExpo this autumn.

Although this will be the first OXExpo, we are confident it will be a success through our partnership with Informa Markets Japan, a company with extensive experience in organizing international exhibitions.

We look forward to meeting you at the OXExpo venue.
